ACRYLIC GEL

SECURE

STRONG & RESISTENT

COMFORTABLE

STRONG & RESISTENT: Acrylic gel is resistant, hard and strong, in order to get unstoppable nails.

SECURE: Monomer free, without dust in the air.

COMFORTABLE: Easy to control, it doesn't spread, fast and easy application.

IDEAL: For any level of professional. With freedom of time to work. Light and resistant nails.

The most advanced nail technique with innovative formula.

The composition of Acrylic Gel consists of a gel base combined with acrylic powder to enhance the resistance, without monomer odor.

The new Acrylic Gel opens a world of infinite possibilities. Never has sculpting nails been so easy, soft, fast and safe.

Acrylic Gel is the perfect combination of the acrylic and gel's sculpting technique. It allows us to enjoy all its advantages.

-
- An unbeatable result with light, flexible and strong nails, odourless and no particles in the air.
 - It's available in 30ml tubes that allows it to be used without wasting a drop.
 - It can be combined with all Gel On-Off colors. It is also suitable for both mold and tip.

Acrylic Gel gel has the perfect texture for a simple and convenient application in three simple steps:

1-Squeeze 2-Apply 3-Mold

The stability provides workability to sculpt and its texture make it more consistent and compact than gel. The unique structure ensures smooth and flawless nails.

Acrylic Gel consistency allows you to achieve an ideal sculpting, without any dispersion and keeping the highest stability.

It allows you to work as fast or as slow as you want because it does not dry in contact with the air.
